

Volume 43, N. 1, January-March 2020

Table of Contents

ARTICLES

<i>Oriental Analysis of the Vesic's Bearing Capacity of Shallow Foundations</i> L. F. dos Santos, A.C.de Freitas	3
<i>Experimental Study of the Group Effect on the Bearing Capacity of Bored Piles in Sandy Soil</i> J. Melchior Filho, V.H.F. Bonan, A.S. Moura	11
<i>Swelling Research of Expansive Soil Under Drying-Wetting Cycles: A NMR Method</i> G.F. Wei, J.G. Dong	21
<i>Residual Shear Strength of a Residual Soil of Granulite</i> M. Heidemann, L.A. Bressani, J.A. Flores	31
<i>Triaxial Compression Test on Consolidated Undrained Shear Strength Characteristics of Fiber Reinforced Soil</i> T.S. Hou, J.L. Liu, Y.S. Luo, Y.X. Cui	43
<i>Mapping of Geological-Geotechnical Risk of Mass Movement in an Urban Area in Rio Piracicaba, MG, Brazil</i> L.E. Assis, E.A.G. Marques, C.A. Lima, S.J.M.C. Menezes, L.A. Roque	57
<i>Landslide Susceptibility Mapping of Highway Slopes, Using Stability Analyses and GIS Methods</i> A.M.L. Craig, O. Augusto Filho	71
<i>Pullout Testing of Soil Nails in Gneissic Residual Soil</i> A.C.N.B. Arêdes, E.A.G. Marques, A.H.C. Oliveira	85
<i>Sustainable Remediation: A New Way of Thinking the Contaminated Sites Management</i> A.B. Braun, A.W.S. Trentin, C. Visentin, A. Thomé	97
<i>Prediction of Compression Index of Soft Soils from the Brazilian Coast Using Artificial Neural Networks and Empirical Correlations</i> A.G. Oliveira Filho, L.B. Totola, K.V. Bicalho, W.H. Hisatugu	103
<i>Tunnel Misalignment with Geostatic Principal Stress Directions in Anisotropic Rock Masses</i> O.P.M. Vitali, T.B. Celestino, A. Bobet	123
TECHNICAL NOTES	
<i>A Model of Energy Dissipation for the Mode of Rupture of Shallow Foundations in Sandy Soils</i> L.F. dos Santos, A. Saraiva, A.C. de Freitas	141
<i>Circular Footing on Geocell-Reinforced Granular Residue from Precious Gem Processing over a Sand Bed</i> J. Favretto, G.D. Miguel, M. Donato, M.F. Floss	151
<i>Modifications in the Chemical and Mineralogical Composition of Compacted Mature Residual Soil Submitted to the Percolation of Acidic Leachates</i> E.P. Korf, P.D.M. Prietto, A.A. Silveira, C. Ulsen, N.C. Consoli, L. Bragagnolo	159

Soils and Rocks

An International Journal of Geotechnical
and Geoenvironmental Engineering

Volume 43, N. 1
January-March 2020
